

Galena: Mom's health insurance made easy with SourcePoint's help

Posted Apr 12, 2018 at 6:05 PM

In July 2017, my mother moved to Delaware from Dayton. Because of the move, she needed new health insurance.

Since my dad had always been the one to work on their Medicare plan, neither of us knew how to begin. I saw an article in My Communicator, a publication from SourcePoint, about insurance and the help offered by SourcePoint's insurance specialists. I made an appointment with Charlotte Pritt, and she walked me through the process of selecting Medicare or a Medicare HMO. It was a free service.

Charlotte reviewed all the options, how to select an insurance plan and helped us submit our final paperwork.

I tell all my friends who are turning 65 years old and who live in Delaware County about this wonderful service. And when my husband and I turn 65, I am heading to SourcePoint for help with our insurance, too.
